Factsheet

Valour Dogwifhat (WIF) SEK

Introduction

Valour Dogwifhat (WIF) SEK is an exchange-traded product that tracks WIF, a memecoin on the Solana blockchain. Launched in 2023, WIF describes itself as “literally just a dog wif a hat” and is driven by its community rather than tied to any platform or service. The total supply of WIF is fixed, and no new tokens can be created.

Valour Dogwifhat (WIF) SEK enables investments in this ecosystem in a simple, secure, and practical way, and is available for trading on regulated exchanges through a bank or broker. The product is a structured investment under Swedish law and is traded on Spotlight Stock Market.

Calculating the price of Valour's ETPs

We calculate the arithmetic mean price of the underlying asset from several major exchanges[1].

Using market rates, we convert the dollar value of the underlying asset into the product currency.

We deduct an annual management fee daily on a pro rata basis.

We apply a multiplier to determine the price of one certificate, ensuring it has an affordable unit price.

1 The reference price is set using the average price of the underlying asset in USD from several of the most liquid crypto exchanges. The exchanges used may vary depending on their trading volumes.

Why Valour's ETPs?

Low fees

Some of the most competitive management fees in the market.

Simple and reliable

Invest in digital assets in a similar way to ETFs and shares.

Secure

Traded on regulated exchanges and 100% hedged with the underlying asset at all times.

Transparent

Clear, consistent link between price of the underlying asset and Valour's ETPs.
