

COMMUNITY CONNECT

SEPTEMBER 2025

ANGLICANFAMILYCARE

Kia ora koutou,

With Mahuru (September) and the arrival of spring (kōanga), we are pleased to bring you our second e-pānui (newsletter). Kōanga is the season of renewal and growth - a fitting theme for the stories we share this month.

We're proud to share that Anglican Family Care recently participated in the Dunedin City Council's Zero Carbon Business Community programme.

This experience gave us practical tools to assess our greenhouse gas emissions, and to connect with other local organisations committed to reducing emissions and making more sustainable choices. It's a small but important step in ensuring we care not only for people, but also for Papatūānuku – our earth.

One of the stories we're sharing in this issue speaks to the very heart of why our mahi matters. Izzy, a mother of two young daughters, faced the challenges of separation without extended whānau support in Aotearoa. Through our Home-based Family Support service, we walked alongside her, offering encouragement, guidance, and practical tools to create a safe, stable, and nurturing environment for her tamariki. Without personalised, in-home support, many whānau risk becoming more isolated, and challenges can quickly escalate.

Ngā mihi nui for your ongoing support. We are deeply grateful to all who have contributed to our recent campaigns and fundraising efforts. Your aroha and generosity help us continue to be there for whānau when they need us most.

Together, we can continue to build stronger, more resilient communities across Otago.

Ngā mihi nui,
Lynette Finnie
General Manager

Izzy's Journey to a Stronger Family

Parenting through a separation left Izzy* feeling overwhelmed and alone. Her two daughters, aged 7 and 9, were struggling with anger and defiance, and Izzy didn't know how to cope.

With the support of Anglican Family Care's Home-based Family Support Service and the Circle of Security programme, Izzy learned to understand the needs behind her daughters' behaviour and rebuild their connection.

"I've realised how much they need me — not just for boundaries, but for love and support," she reflects.

Good News! Spaces now available in our Dunedin Family Start programme

We're pleased to let you know that our Dunedin Family Start programme is now able to take on new referrals, with spaces available for clients who are ready to engage.

To support more families, we've updated our referral criteria. Referrals are now open for children up to 12 months old, bringing us back in line with our rural sites. This change follows a temporary limit to 6 months, which helped us manage demand while we built capacity – and we're excited to now be able to extend our reach again.

Referrals can be made directly through our website: Dunedin.Services.AnglicanFamilyCare.org.nz, or by sending completed referral forms to FamilyStartDunedin@FamilyCare.org.nz.

We look forward to continuing to work alongside you to connect whānau with the support they need.

How Our Community Supported Us

Your aroha and generosity keep us walking alongside whānau when they need us most.

Partnering with Otago University

Last month, we partnered with Professors Stephen Knowles and Ronald Peeters from the University of Otago's School of Economics on a donor matching research project exploring what motivates people to give.

Thanks to the share of \$5,000 to support dollar-for-dollar matching (up to \$50) to every donor who participated, we were able to better understand how generosity grows.

Midwinter LEGO® Appeal

A huge mihi to everyone who has donated Lego since our last pānui. Our Social Workers in Schools are thrilled – these gifts are not just toys, but tools for creativity, connection, and emotional expression.

We are still accepting donations of LEGO.
