

Guarantee certificate

The facade profiles are manufactured from high-quality raw materials using state-of-the-art technology. They are also subject to constant quality control and the production process is continuously monitored. Vinylit therefore provides a manufacturer's guarantee for proven material and/or production defects for a period of 10 years from the date of installation as stated on the declaration overleaf.

A prerequisite for the guarantee is professional installation in accordance with the UltraClad installation instructions and proper storage of the façade profiles.

The warranty claim must be reported to us in writing immediately after it occurs. This guarantee only covers possible material and/or production defects, but not complaints that are due to improper handling, use and wear as well as soiling and natural ageing of the façade profiles or damage caused by changes to the cladding wall or the substructure, such as movement or cracks or exceptional circumstances, such as lightning, wind, storm, hail, flood or fire. Statutory claims remain unaffected. Damage resulting from material and/or production faults on which the guarantee claim is based may only be repaired after assessment by UltraClad and with its approval.

UltraClad will settle justified claims based on this guarantee declaration at its discretion either by a replacement delivery, repair or by reimbursement of the purchase price paid for those façade profiles that show a defect. When calculating the purchase price to be refunded, Vinylit will bear the costs in full within the first year of installation; from the third year onwards, the amount to be borne by UltraClad is reduced by 12.5 % per year in relation to the original purchase price.

Accessories, materials, labour costs or other claims for damages are not covered by this guarantee. This guarantee is only valid if the relevant guarantee application form is completed and returned within 90 days of completion of the installation work and if the guarantee document has been duly signed.

Incorrect and incomplete information will invalidate the warranty claim. The warranty claim cannot be transferred, assigned or sold.

Yours sincerely
Ultraclad
