

AFTER THE CURTAIN

Voices from the National Climate Play

May 19, 2026 • Community Circle Conversation

"There are questions a play can hold that a policy document cannot."

What happens after the curtain falls?

Following the first public reading of the National Climate Play in Whitehorse, six panelists reflected on three years of listening to communities across Canada. Their conversation explored how theatre can become a place where climate knowledge is shared through lived experience, memory, music, and dialogue.
