Provision of interview recording facilities

LFP MEDIA offers international broadcasters the opportunity to conduct interviews with Ligue 1 players in the lead-up to each matchday. To ensure the highest production standards, LFP MEDIA provides optional on-site technical facilities, operated by professional crews.

International broadcasters must submit their requests at least two (2) days prior to the scheduled interview in order to allow for appropriate coordination with the relevant club and on-site teams.

Subject to these minimum requirements, LFP MEDIA shall use reasonable efforts to accommodate any additional requests, insofar as operationally feasible.

Where LFP MEDIA's facilities or crews are already present on-site for another production, interview coverage may be provided at no additional cost, subject to availability. In such cases, the broadcaster's journalist may also participate in the interview remotely via videoconference for the purpose of asking questions.
