

NVIDIA CUDA-Q on Quantinuum Systems

Offer Details

This offer is for the following services, provided as an in-kind exchange for 90 days:

- Access to the H2 QPU¹
- Access to H2 emulator
- Access to the H2 syntax checkers
- Technical support provided by QCsupport@quantinuum.com. We aim to respond to all emails within one US business day. All requests for support must be given in English.

In exchange for this access, you agree to the following:

- Acceptance of [Quantum System & Nexus](#) terms and conditions without modification. You will be prompted to sign these terms at login to Nexus.
- Must be a first time user of Quantinuum System Hardware.
- Use of the CUDA-Q plus Quantinuum hardware workflow.
- Meet with our teams after your trial to provide a debrief of your trial period and suggestions for improvement.
- Advance notice of any intention to publish data that resulted from this access.
- Consider in good-faith any requests to provide a quotation for Quantinuum's use in marketing and general business promotion, and act as a reference for others considering usage of our QPU.
- Attend an onboarding session prior to the start of access.
- Begin access term no later than December 31st, 2025.

1. As part of introductory access, you will receive access to H2 QPU and emulator, but with a priority less than that of our current customers. Monthly access, queue and run times are therefore not representative of what subscription customers experience. Quantinuum reserves the right to cancel, stop, delay jobs, or assert an allocation cap if needed to manage allocations.
