## JY Care

### Built on Trust, Made in Canada.

Since 2019, JY Care has taken a different path—one grounded in the belief that health products should be as trustworthy as the people who rely on them. From our facility in Markham, Ontario, we manufacture medical-grade face masks and Natural Health Products (NHPs) under ISO 13485-aligned and GMP-compliant systems, pairing Canadian precision with a culture of transparency.

Our approach is simple: prove every claim. Every box, every batch, every shipment is backed by fully traceable documentation that follows the product from raw materials to final delivery. In a global market where quality often gets lost in scale, JY Care chose to build locally—and invest in the discipline, speed, and regulatory alignment that domestic manufacturing makes possible.

For hospitals, retailers, and wellness brands, JY Care represents a path forward: a Canadian manufacturer that matches global capability with local integrity—built on trust, made in Canada, powered by proof, and always ready to scale a brand responsibly.

### JY Care is Quality-First.

- Canadian-made quality and compliance
- Hospital-grade PPE performance backed by third-party data.
- Superior, high-quality Natural Health Product (NHP) private-label formula, manufacturing, & GTM solutions.
- Responsible sustainability approach
- Scalable production for hospitals, distributors, and corporate buyers

### **Biodegradable ASTM Medical Face Mask**

- Additive-enhanced design for reduced environmental impact
- Manufactured in Ontario
- Tested for biodegradation rate and material integrity
- Meets full ASTM 1-3 medical performance standards
- EcoCare pledge ensures transparent, verifiable environmental claims
- [Download datasheet](#)

### **ASTM Medical & Every-Day Face Masks (PPE)**

- ASTM Level 1–3 masks
- Manufactured in Ontario
- Third-party tested for filtration, breathability, and safety
- Blue, black, pediatric, and everyday-use formats
- Biodegradable additive version available under controlled lab conditions
- [Download datasheet](#)

### **Natural Health Products (NHPs)**

- Gummy-based vitamins and supplements
- Produced in an FDA-registered, Health Canada site-licensed facility
- Vegan, gluten-free, GMP-quality
- Private-label and white-label capabilities

## Manufacturing & Compliance

- **Location:** Ontario, Canada
- **Certifications:** ISO 13485, ASTM L1–L3, GMP, Health Canada site license
- **Testing:** Third-party labs for biodegradation, filtration efficiency, and safety
- **Quality Focus:** Traceability, batch-level documentation, transparent data

## EcoCare Pledge & Certifications

- A commitment to responsible manufacturing:
- Every environmental claim is backed by verifiable testing
- Transparent reporting of biodegradation performance
- Avoids exaggerated or non-compliant sustainability language
- Aligned with modern Canadian anti-greenwashing standards

### **About JY Care**

JY Care is a Canadian manufacturer specializing in high-performance PPE and natural health products built on transparency, regulatory compliance, and disciplined quality systems. Its operations adhere to ISO 13485, GMP, and Health Canada site-license standards. Through its [EcoCare Pledge](#), JY Care commits to evidence-based sustainability, alignment with anti-greenwashing principles, and continuous innovation across all product categories.
