

UNLOCK THE POWER OF YOUR FLEET'S DATA WITH PS ANALYTICS

Turn complex data into clear decisions. PS Analytics delivers ready-to-use dashboards and customizable insights that help you improve efficiency, safety, and compliance

AUTOMATED REPORTS THAT SAVE TIME

Simplify your reporting process with automated, scheduled reports. Key metrics are delivered straight to your inbox or dashboard so your team stays informed and aligned without manual effort.

SMARTER DASHBOARDS, TAILORED TO YOUR FLEET

Drill into what matters most for your fleet—fuel usage, idle time, speeding, or HOS compliance. PS Analytics provides customizable filtering and dashboards that highlight the key metrics driving performance.

PROACTIVE FLEET MANAGEMENT

Stay ahead of issues with real-time alerts for threshold exceptions. Spot trends and take action on underperforming assets or drivers before small problems turn into costly events.

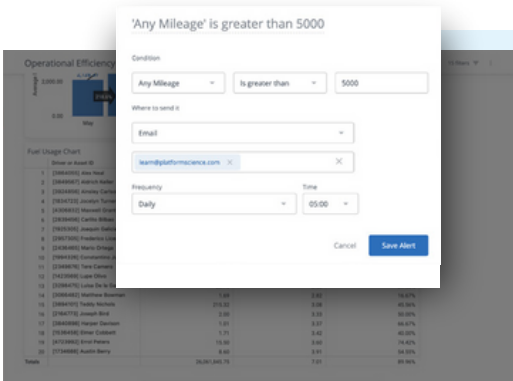

FASTER, CONFIDENT DECISIONS

Get the full picture at a glance. Intuitive visuals and data filters make it easy to identify opportunities, reduce downtime, and make data-backed decisions that keep your fleet moving safely and efficiently.

PS ANALYTICS

Feature Spotlight

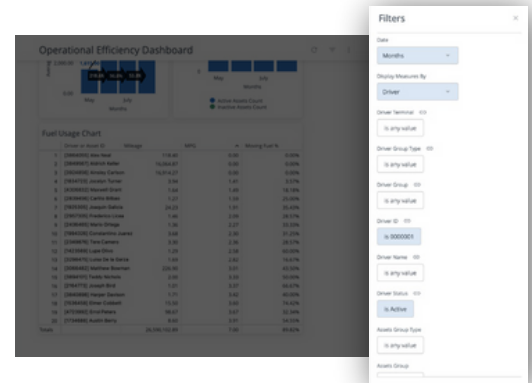

ALERTS

Act quickly when drivers cross thresholds you've set by providing immediate coaching and engaging in problem-solving with built-in alerts.

FILTERS

Easily refine your view using intuitive filters that update instantly on your dashboard for quick, targeted analysis.

OPERATIONAL EFFICIENCY DASHBOARD

Track asset utilization, idle time, and fuel use to uncover hidden inefficiencies and boost productivity.

SAFETY AND COMPLIANCE DASHBOARD

Monitor critical events, HOS violations, and driver trends in one view to ensure your fleet operates safely and stays compliant.
