

SIMPLIFY VEHICLE INSPECTIONS WITH PS DVIR

An intuitive digital DVIR that saves drivers time, eliminates back-office errors, and gives your maintenance team the clarity they need.

NO DEFECTS? NO PROBLEM

Get drivers back on the road faster with defect-only workflows. If no issues are found, they can select "No Defect," certify, and submit in seconds—no unnecessary clicks.

COMPLETE MAINTENANCE VISIBILITY

A built-in three-signature workflow captures every step of the repair process—from defect report to final fix—helping you close the loop quickly and accurately.

GUARANTEED DVIR COMPLIANCE

Integrate PS DVIR into PS Workflow to make pre- and post-trip inspections a required step. Automatically log every DVIR for audit readiness.

AN INTERFACE DRIVERS PREFER

Drop-down inspection fields and intuitive prompts reduce data-entry errors, ensuring accuracy for both drivers and back-office teams.

A PICTURE IS WORTH A THOUSAND CALLS

Drivers can attach photos or videos directly from their tablets, giving maintenance teams the context they need to take action immediately.

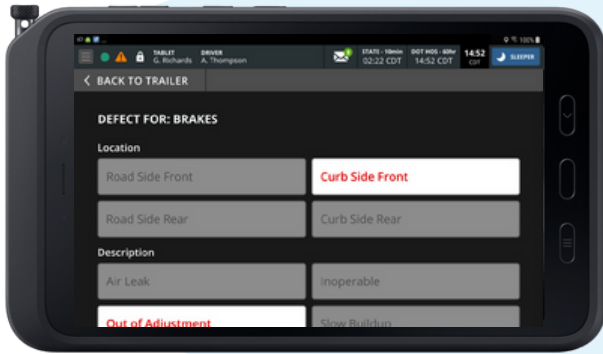

FROM DEFECT TO DISPATCH, FASTER

Automatically send DVIR data and photos into your maintenance system, allowing quick scheduling and seamless tracking of all open items.

PS DVIR

Feature Spotlight

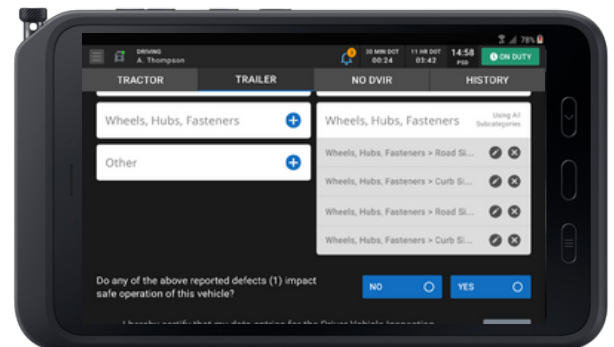

DEFECT-ONLY FLOW

Drivers can perform defect-only checks instead of clicking into each inspection area. If no defects are found, drivers simply select “no defect,” certify, and submit.

THREE-SIGNATURE CAPTURE MAINTENANCE WORKFLOW

Our third signature capture enables drivers to quickly review and sign off on repairs to reported defects and helps you track the maintenance cycle more efficiently.

RESOLVE DEFECTS FASTER WITH IMAGES CAPTURED FROM THE FIELD

Verify vehicle issues or load defects with photos directly uploaded from your drivers’ tablets.
