

PS VISUAL INTELLIGENCE DRIVE DOWN RISK. DRIVE UP SAFETY.

A fully integrated, enterprise-grade safety platform that leverages AI-powered video evidence to help reduce litigation exposure and lower insurance costs.

YOUR BEST WITNESS IS ALWAYS ON

Capture HD video from every angle to protect your drivers and your business. Reduce uncertainty with objective evidence that helps curtail costly claims.

COACH THE MOMENT, NOT THE MISTAKE

Turn AI-validated footage into actionable coaching insights. Our advanced filters cut through false positives, helping you focus on real behaviors that impact safety and performance.

SAFETY DRIVERS ACTUALLY WANT

Empower drivers with real-time visibility and in-cab awareness tools. Help them stay alert, avoid blind spots, and feel confident behind the wheel.

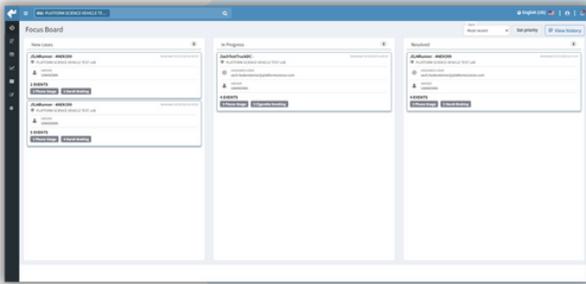

ONE PLATFORM. ZERO CONFUSION

Simplify your tech stack with a single, connected platform. Manage video, coaching, and analytics all in one place, integrated with your existing tools and workflows.

PS VISUAL INTELLIGENCE

Feature Spotlight

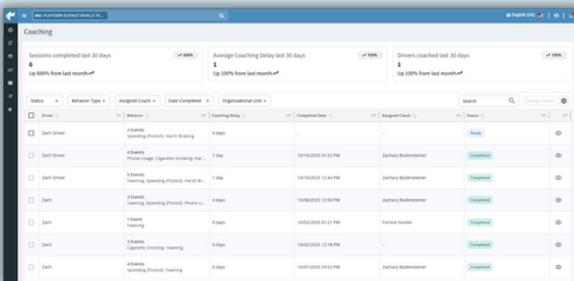

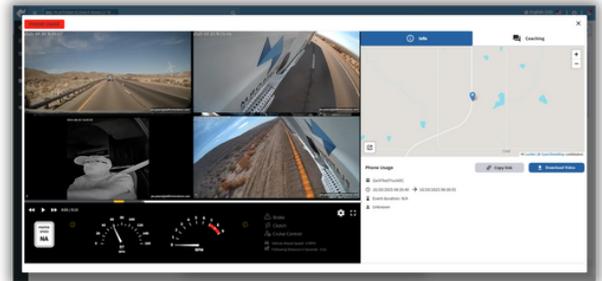

SAFETY DASHBOARD

Centralize every safety case in one easy-to-use dashboard. Track new, in-progress, and resolved events for faster coaching and clearer accountability.

EVENT REVIEW

See every angle, every detail. Synchronized video paired with vehicle data gives you the full story behind every incident. Export clips with telemetry overlays to share insights and close incidents quickly.

COACHING DASHBOARD

Get full visibility into driver performance to guide smarter coaching decisions. Track performance with detailed safety scores, rankings, and trends across all trips to visualize event patterns and identify coaching opportunities.

DRIVER ASSIST

Give drivers real-time awareness to prevent accidents before they happen. Driver Assist streams side and rear camera views directly to the in-cab tablet, helping drivers stay confident in tight spaces, lane changes, and backups.
