

FLEET MANAGEMENT SOFTWARE

# RTA Fleet360

RTA: The Fleet Success Company helps public sector and enterprise fleets managing in-house maintenance make smarter decisions with a modern FMIS, legendary fleet consulting, and top-tier support.

RTA Fleet360 streamlines budgeting, reporting, workflows, inventory, and more—while our real-time data sync with Platform Science turns accurate meter data (specifically mileage and engine hours) into actionable results to help your fleet succeed.

# It Started by Saving UPS \$100M

Ron Turley helped save UPS \$100 million in operating costs. And that achievement serves as the basis for RTA's success today.

Our mission at RTA is clear—we help fleets succeed. That's it. Whether it's through our software, training, consulting, or overall fleet expertise, we're here to help you serve your community.

### **FEATURES + BENEFITS**

#### **ASSET MANAGEMENT**

See all your vehicles, equipment, and tools in one easy-to-manage fleet management software.

#### **MAINTENANCE & REPAIR**

Plan schedules, monitor ongoing and completed work, and optimize workflows to keep your trucks on the road.

#### **BUDGETING & COSTS**

Analyze fleet costs-from asset replacement costs, to annual vendor costs, to total M&R costs by VMRS code.

#### **VEHICLE INSPECTIONS**

Eliminate manual paperwork, automate WO creation, improve communication, efficiency, and compliance.

#### **PARTS & INVENTORY**

Easily manage inventory levels across all parts, including tires, with clear visibility into your stock.

#### **FLEET SCORECARD**

Get a comprehensive fleet health score across four critical pillars, to guide strategic improvements.

11

The data helps us tell the full story—how long tasks take, why vehicles are down, PM efficiency, and more. Instead of just asking about PMs or breakdowns, we now have clear answers and visibility we didn't have before.

-Ryan Vincent, UNFI

## LEADING FLEETS BUILT HERE

RTA goes beyond selling software; we partner with you for lasting success. Our cutting-edge FMIS software, combined with strategic consulting and ongoing educational resources, keeps fleets thriving for the road ahead.
