

NAVIGATE CONFIDENTLY AND SAFELY WITH PS NAVIGATION

Give your drivers confidence behind the wheel with PS Navigation, built specifically for commercial fleets.

GET THERE WITH CONFIDENCE

Eliminate guesswork on the road. Drivers get clear, turn-by-turn directions, real-time traffic updates, and weather alerts, all designed for large-vehicle navigation.

OPTIMIZE YOUR ROUTES WITH INSIGHTS

View trip metrics, analyze mileage, and monitor average speeds to continuously refine your fleet's performance and reduce wasted time.

STAY AHEAD OF THE CLOCK

Integrated with PS Hours of Service, Navigation helps drivers plan trips around break requirements and stay compliant with ease.

CUSTOM ROUTES FOR EVERY JOB

Add preferred stops like fuel stations, customer yards, or loading docks directly into your route plan. PS Navigation adapts to your fleet's daily operations.

SMARTER, SAFTER ROUTES

Our truck-specific routing engine factors in vehicle weight, height, length, axle count, and hazmat requirements to ensure every route is safe, compliant, and efficient.

AVOID HAZARDS & DELAYS

Mark "no-go" zones or high-risk roads so drivers can automatically avoid congestion, unsafe areas, and unnecessary detours.

PS NAVIGATION

Feature Spotlight

WIFI MAP DOWNLOADS AND UPDATES

Save cellular data with WiFi Assist, drivers can download large map updates over approved WiFi networks during breaks.

ROUTE HISTORY

Compare planned vs. actual routes and review speed, mileage, and travel time to uncover optimization opportunities.

PRE-TRIP ALERTS

Provide proactive HOS and traffic notifications so drivers know what's ahead and can prepare for the day safely.
