

STAY CONNECTED TO YOUR DRIVERS WITH PS MESSAGING

Stay in sync with everyone in your fleet with an easy-to-use communications platform that keeps drivers and back-office teams connected in real time, around the clock.

NEVER MISS A MESSAGE AGAIN

Send urgent messages to your drivers quickly and safely with priority messaging and audio playback that ensures your messages are always heard.

CHOOSE HOW YOU CHAT

PS Messaging delivers the flexibility you need to stay connected with ease. Whether you want to send a message to your whole fleet, selected groups, or a single driver, you'll have the power to customize how you communicate.

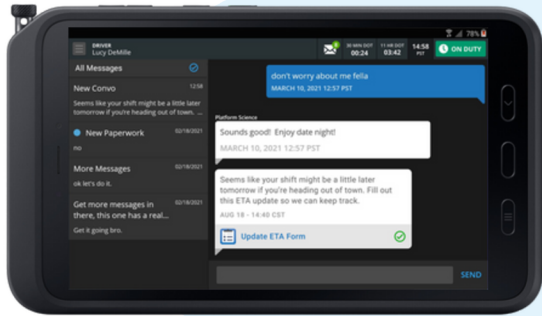

REACH OUT IN REAL TIME

Easily manage your messages and track who has seen them with read receipts that keep your conversations up to date.

PS MESSAGING

Feature Spotlight

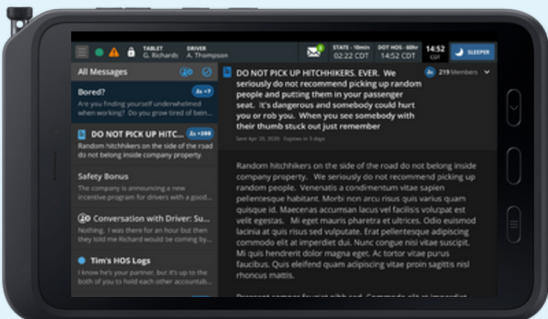

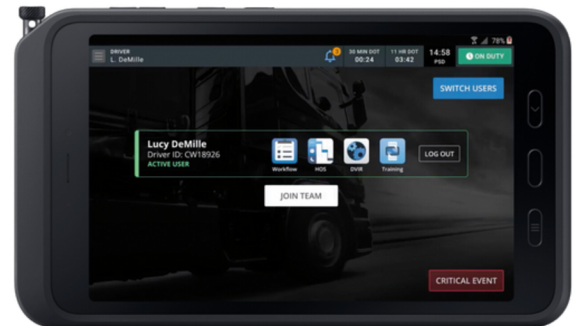

DEEP-LINKING

Save time and effort by quickly jumping between Platform Science and third-party apps with a single click via PS Messaging's intelligent deep-linking feature.

URGENT MESSAGES

Get the right information to drivers at the right time by having 'urgent messages' read aloud right away, 'priority messages' saved for their next stop, or 'normal messages' for whenever they're not on the road.

FLEETWIDE MESSAGES

Reach your whole fleet in one click with Fleetwide Messaging, a feature we designed to easily share company updates, process changes, or holiday greetings with everyone at once.
