

Secure digital fleet payments

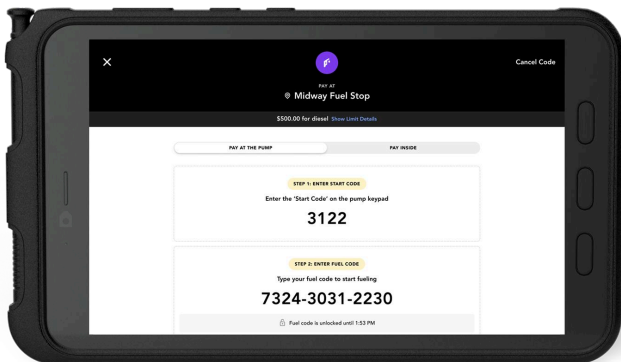

RelayCodes can be used for all over-the-road expenses including fuel, lumpers, scales, repairs, cash, in-store purchases, and more.

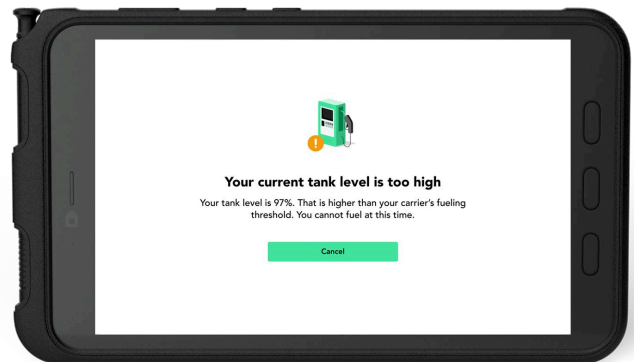

The Relay mobile app eliminates the hassle of physical cards and checks

Drivers can find the best price along their route

RelayCodes are used to pay at the pump or for in-store items

Relay PulsePro eliminates fuel fraud with real-time insights.

Core features

RelayCodes

RelayCodes use modern technology to eliminate fraud. For each transaction Drivers are generated a unique one-time code that can only be used if they are physically at the correct location.

Driver polices

Driver policies allow you to enable your drivers to pay for fuel and over the road expenses within limits that you set. This includes the ability to control what, how much, where, and when, your drivers can make purchases.

Reporting

Create, schedule, and export customized reports on driver activity and transactions.

Merchant discounts

Relay is accepted at over 3,000 truck stops nationwide and can apply your direct negotiated discounts with fuel merchants.

The screenshot displays the 'New policy' configuration screen in the Relay application. On the left, a sidebar shows the user 'Hank Albacore' from 'Jamcastle Trucks, LLC' and a navigation menu with options like '+ Create', 'Transactions', 'Drivers', 'Policies', 'Explore', 'Reports', 'One-time payments', 'Expense cards', and 'Settings'. The main content area is titled 'New policy' and features a search bar for 'Company Drivers'. Below the search bar, there are 'Product limits' for various categories: Diesel (Limit 1 Transactions Per day, Limit 2 2000 Gallons Per week), CAT scales (Limit 30 Dollars Per day), Lumpers (Limit 1000 Dollars Per week), and Expense card (Limit 200 Dollars Per day). Each limit entry includes an 'Add +' button and a close 'X' button. A 'Managing policies' link is visible in the top right corner.
