

Fleetworthy Weigh Station Bypass (Formerly Drivewyze PreClear)

Keep Drivers Moving. Reduce Delays. Improve Efficiency.

Fleetworthy Weigh Station Bypass helps fleets of all sizes reduce delays, save time, and keep drivers moving safely through North America's largest bypass network, spanning more than 925 sites across the U.S. and Canada.

Operating directly on your existing ELD or telematics device with no transponders, no additional hardware, and no disruption to your operations, the system keeps drivers on the mainline and out of unnecessary queues.

Each bypass saves fleets an average of \$11.95 in fuel, time, and operating costs, delivering meaningful ROI while improving efficiency, compliance, and driver satisfaction.

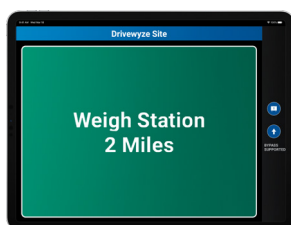

Fleetworthy Weigh Station Bypass keeps our trucks rolling. We've seen real savings in time, fuel, and driver satisfaction - all without adding complexity to our tech stack.

Director of Safety

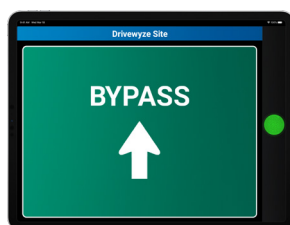

HOW IT WORKS:

In-Cab Alerts

Drivers receive clear audio and visual notifications as they approach a weigh station or inspection site.

Bypass Decisions

Based on safety scores and credentials, drivers are instructed to bypass or pull in.

Automatic Compliance Logging

Each Weigh Station visit is recorded for complete visibility and reporting.

Simple Integration

Works on your existing ELD or telematics device - no transponder required.

Key Benefits

Fleetworthy partners with over 40 telematics and ELD providers, giving fleets access to the **largest connected truck platform in North America**. Together, this network helps

Reduce Operational Costs

Save fuel, minimize idling, and decrease wear and tear from unnecessary stops.

Improve On-Time Delivery

Keep schedules predictable and deliveries running smoothly.

Boost Driver Retention

Drivers are three times more likely to stay with fleets offering bypass technology.

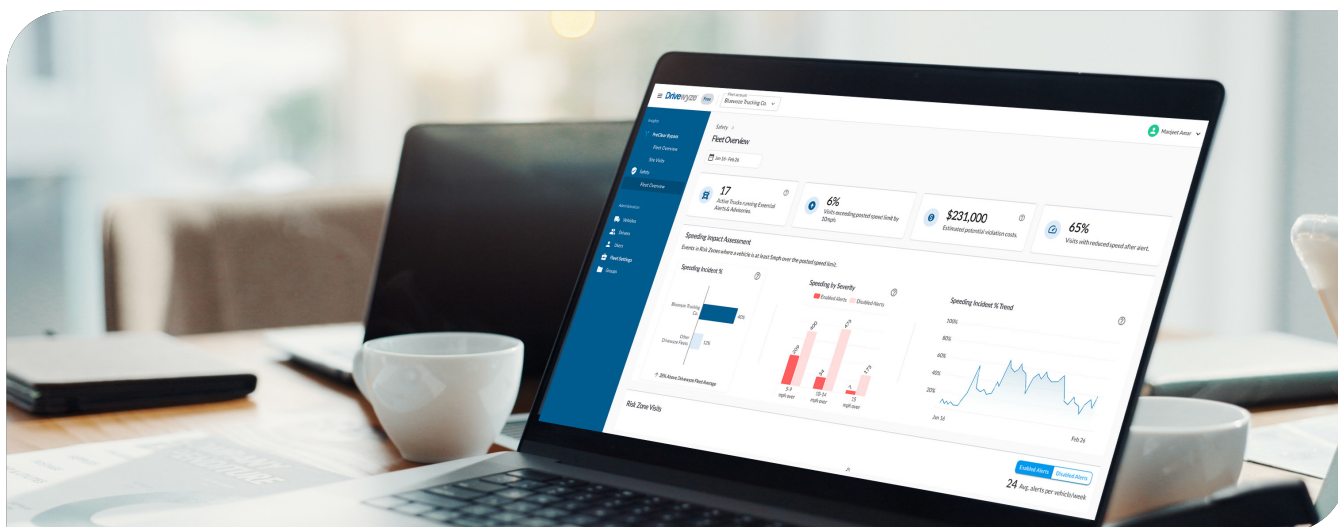

Enhance Sustainability

Reduce emissions and carbon output by staying on the mainline.

Proactive In-Cab Alerts included at No Additional Cost

All Weigh Station Bypass subscribers receive essential in-cab safety alerts that help drivers anticipate hazards like sudden slowdowns, severe weather, and roadway risks - improving awareness and on-road decision making.

Fleetworthy is redefining fleet readiness by bringing together the trusted leaders in toll management, weigh station bypass, and compliance. By uniting Bestpass, Drivewyze, Fleetworthy Solutions and more, we offer the industry's only complete suite for fleet safety, compliance, and efficiency.
