Aperia TECHNOLOGIES ®

Get ahead of tire issues with the Halo Drive app.

See live tire health updates and take action on critical issues before they escalate.

Conduct tire pre-trips with the touch of a button and make every trip safer.

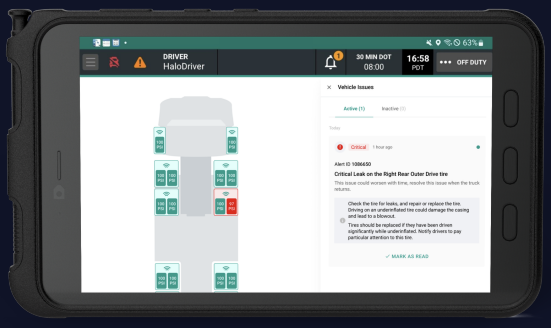

Halo Drive App

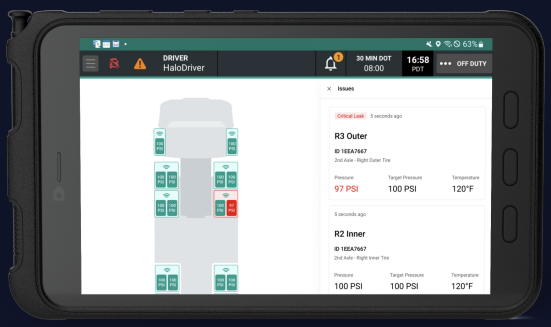

The Halo Drive App puts real-time tire health updates in the cab, alerting drivers to critical tire issues so service can be scheduled before it becomes downtime. It automates pre-trip tire inspections, which take under a minute and are logged with date, time, and tire status. Fleet managers control which alerts drivers see and how they respond, and review inspection history.

Features

REALTIME TIRE ISSUE ALERTS

DIGITIZED PRE-TRIP TIRE INSPECTIONS

Three Core Benefits

RECEIVE REAL-TIME TIRE ISSUE ALERTS ON THE ROAD

Issues needing immediate driver attention are shared instantly to enable drivers to tackle critical issues before a tire goes completely flat or causes downtime.

COMPLETE PRE-TRIP TIRE INSPECTIONS

Halo Drive reminds drivers to run pre-trips and conducts them with the touch of a button.

CUSTOMIZE DRIVER MESSAGING

Customize tire health alerts, and display key information that is most important to you.
