

Green Innovation Report

Gen Digital Inc. - 2024

ISIN: US6687711084, Ticker: GEN, Country: US, Sector: Systems Software

This report evaluates the green innovation activities of the company over the past decade, based on inventions published in green technology areas defined by the IPC Green Inventory. This inventory, established by the World Intellectual Property Organization, identifies technologies aligned with the United Nations' definition of Environmentally Sound Technologies. These innovations contribute to mitigating humanity's impact on climate change in support of the Sustainable Development Goals.

Innovation Metrics

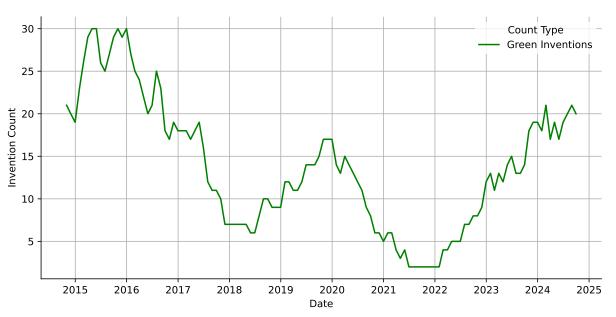

Invention Count (last 12 months)

Green Invention Count (last 12 months)

111 Inventions

20 Green Inventions

Each invention reflects a substantial investment of R&D and legal resources. Consequently, green inventions provide a reliable and high-integrity metric for measuring a company's innovation efforts in green technologies and sustainability.

Rolling 1-Year Invention Count

The graph above illustrates the number of green inventions published by the company over the past decade. Data is presented monthly, with each point representing the total green invention count for the preceding 12 months.

Green Technology Footprint

Rolling 3-Year WIPO-Green Footprint

The graph below showcases the temporal distribution of the company's green innovation activity across technology fields listed in the IPC Green Inventory. This distribution highlights the green technology footprint and its evolution as part of the company's innovation strategy.

100 WIPO-Green Technology Field Carbon/emissions trading, e.g. pollution credits Commuting, e.g., HOV, teleworking, etc. Vehicles in general 80 WIPO-Green Inventions in % Bio-fuels Power supply circuitry Measurement of electricity consumption 60 40 20 0 2024 2015 2016 2017 2018 2019 2020 2021 2022 2023 2025 Date

The table below provides a quantitative analysis of the growth and significance of the company's key green technology fields. For each field, the most frequently appearing keywords in recent inventions offer valuable insights into the company's green innovation activities.

WIPO-Green Technology Field	Absolute Growth (3y)	Percentage of Green Inventions (3y)	Keywords (3y)
Commuting, e.g., HOV, teleworking, etc.	40	48.2%	social networking, collaborative work environment, social medium content, payment card, asset item
Measurement of electricity consumption	3	3.6%	supply voltage, voltage detection circuit, supply voltage detector, supply voltage detection, pulse signal width
