This document contains a list of all improvements implemented today. We, the VIPS CloudPMS team, are constantly working to improve and update the application. We can't do this without your help. Thank you!

The following items have been fixed:

Case	Description
17898	We identified an issue in some of the reports and advanced search results where the reservation and cleaning statuses were not translating correctly. This has now been resolved.
21005	<p>We observed an issue on the folio screen where, after editing a booked product and changing it to a different product, the changes are saved but not reflected correctly. Both the folio and the proforma continue to display the original product instead of the newly selected product.</p> 
22270	<p>We observed that when counterbooking a product, the <b>correction reason</b> was not displayed on the edit screen. This issue has now been resolved.</p> 
22728	<p>Previously, the <b>BCC email address</b> was a mandatory field in the communication module. It has now been changed to an optional configuration field.</p> 

22730

The new **Quick Load** screen now opens showing the current date by default, eliminating the need to scroll to today. You can still scroll to earlier dates if needed.

An issue was reported where the company address was missing on the printed proforma. While the details were visible on the proforma screen and appeared correctly once converted into an invoice, they were not showing on the printed proforma. This issue has now been resolved.

22759

Printing, downloading, or emailing a proforma previously failed if the assigned contact was missing a country in the address. This now works even when the contact has no country specified.

22762

Previously, it was not possible to unmap services in **Channel Manager service mapping**. This has now been updated — you can unmap a service and save the changes successfully.

Channel Manager ID	Channel Manager Service	PMO Product	Map On Home Dashboard
27702	Breakfast	Breakfast	Yes
27703	Flowers		Yes
27704	Tickets		Yes
020004	Flat rate on room price		Yes
020005	Discount amount 10		Yes

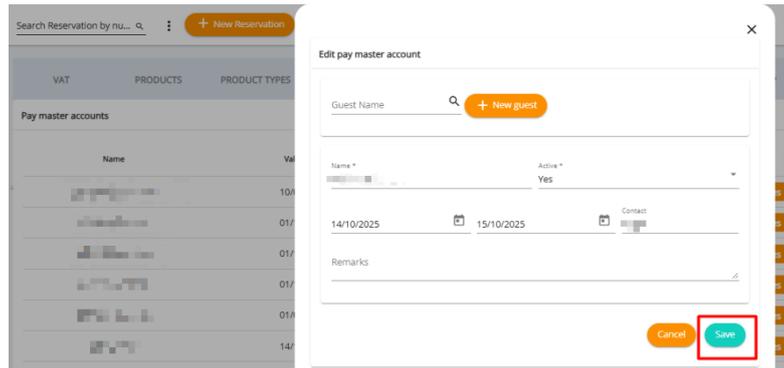

22767

The **table theme border styles** for the new communication block parameter were not displaying correctly on the communication template. This has now been restored.

Kamertype	Tarief	Ka met 5	1	0	0	4	Kamersprijs	Toeslagenbelasting
Single room		1	1	0	0	4	€400.00	€11.04
		1	1	0	0	4	€400.00	€11.40
Totaal		2					€800.00	€22.44

22547

Editing an **expired Paymaster** account and setting it to Inactive previously kept the Save button disabled. This issue has now been resolved.

22265

Inconsistencies were observed with the **Page Up** and **Page Down** buttons on the Roomstay screen. The logic has now been revised to resolve this.

Main Dashboard: based on the arrivals list  
General search: based on the search results list  
Quick search: based on the search results list  
Summary screen: based on the list of roomstays
