This document contains a list of all improvements implemented today. We, the VIPS CloudPMS team, are constantly working to improve and update the application. We can't do this without your help. Thank you!

The following items have been fixed:

Case	Description
23770	<p>We identified an issue where translations for the different date formats in the newly introduced block object parameters were not properly supported in communication templates. This issue has now been resolved.</p> 
24109	<p>When updating a rate with a closed restriction through Edit Reservation > Change Rate and Pax Per Date, the following message will appear when saving your changes.</p> 
24127	<p>After the sprint release, we identified an issue with printing function sheets, where multiple events were displayed on the same page instead of each event starting on a new page. This issue has now been resolved.</p>
24139	<p>We identified and resolved an issue when editing communication templates related to the following four planner parameters:</p> <p>Planner</p> <ul style="list-style-type: none"> Category Fietsverhuur details Category Meetings & Events details Category Dayuse details Category EXPIRED details <ul style="list-style-type: none"> • When these parameters were dragged into the template and previewed, the preview worked correctly. • However, after adjusting the table and previewing again, the preview no longer worked.
