CAD Technician

- Operations team
- Full-time
- Hybrid (Leeds)

About us

Zest is one of the UK's fastest-growing electric vehicle (EV) charge point operators, with a mission to make EV adoption accessible to everyone. By joining our team, you'll drive transport decarbonisation, support the UK's net zero goals and help improve air quality.

As a B Corporation, we're committed to making a positive difference for people and the planet, while also driving sustainable growth. This ethos is reflected in our company values, which guide everything we do:

People first

Our infrastructure is designed to **serve communities**. We're committed to developing charging solutions that people need today and in the future.

Social equity

As nearly 40% of UK drivers don't have a driveway, **we're making EV adoption a realistic option** for those **without home charge points** by providing publicly accessible infrastructure.

Doing it right

Beyond delivering low carbon infrastructure, **we're undergoing carbon literacy training**, regular carbon audits and carbon offsetting to ensure we meet our **2040 net zero targets**.

About the role

CAD Technician

- **Operations team**
- **Full-time**
- **Hybrid (Leeds)**

The CAD Technician will work within Zest's Operations team to understand the requirements of their initial designs and turn them into accurate and detailed technical drawings.

These drawings are used at all stages of a project, from estimating cost and feasibility to creating designs for installation, planning applications and consultations for local authorities and our clients.

Responsibilities

- Produce high quality and technically correct drawings, amend and revise drawings, produce plans in co-ordination with the Operations Team.
- Create 2D existing & proposed plans, technical drawings and initial concepts.
- Use computer aided design technologies to produce and develop sketches, drawings and documents.
- Take an active role in projects and the coordination process.
- Quality Assurance of drawings to ensure they are accurate and meet requirements.

Knowledge & skills

- Minimum 2 years practical CAD experience.
- Computer literate particularly in the use of CAD software.
- The ability to produce technical drawing.
- Knowledge of health and safety requirements in order to design in line with industry standards.

Desirable qualifications

- Level 2 Diploma in Engineering Technology
- Level 2 or 3 Award in 2D Computer-Aided Design
- Level 3 Diploma in Engineering design and draughting

Meet the team

Operations

Dan Harris
Operations Director

Dan oversees operations to ensure the deployment of EV chargers at scale is carried out quickly, safely and efficiently to a high standard. His team provides the foundations that help us deliver projects to our clients across the UK. Dan loves to travel and spend time with his children but is also building a keen interest in golf!

Joshua Handy
CAD Manager

Joshua leads our CAD team within Operations, making sure every drawing is delivered on time and to the highest quality. He's the go-to support for our CAD Technicians, keeping projects running smoothly whether they're for Local Authorities, private clients, or Hub Development. Outside of work, Joshua enjoys playing squash and spending time in his garden.

Celestina Ajobena-Yussuff
CAD Technician

As a CAD Technician, Celestina produces accurate and precise HUB layout drawings, from the planning stages through to build. Outside of work, she loves connecting with nature, exploring new knowledge through research, and engaging in thoughtful problem-solving.

Why Zest

Be part of something that matters:

Join an industry that's driving real change. If you're looking for a career with purpose and impact, we'd love to have you on our team.

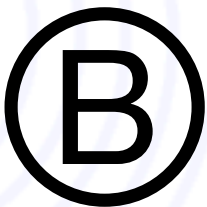

Thrive in a great team culture:

Recognised as outstanding by Best Companies, we've built a supportive, collaborative environment where contributions are celebrated, and our team are empowered to grow.

Our benefits

- Hybrid working - we have no set office days, so you can work flexibly
- 25 days annual leave increasing to 27 days after 2 years' service
- Enhanced family leave and pay
- Employee Assistance Programme
- Health and wellbeing benefit
- Paid dependants and carers leave
- Enhanced parental and bereavement leave
- Eye care
