- 2 backstage passes for accompanying person or agent
- **Ginger Shots (Pure Ginger, non-alcoholic)**
- **2 Bottled Coconut Water**
- **3 Maté**

# EN - THYORA

## 250 Character Biography

THYORA is a melodic techno artist weaving celestial synths, oriental textures, and deep grooves into hypnotic journeys. Known for opening iconic stages like Nordstern and Gurtenfestival, she channels raw emotion into rhythm, guiding dancers into mythic inner worlds.

## Short Biography

Swiss artist THYORA blends melodic techno with deep house, afro house, and subtle oriental elements to shape evocative dancefloor journeys. Classically trained in piano and music theory, she's become known for immersive sets at venues like Nordstern and Gurtenfestival. Sharing stages with artists such as Mind Against, NTO, Miss Monique, and Kölsch, she builds deep, emotional narratives through sound; designed not just to move bodies, but to awaken spirits.

## Full Biography

Born on July 20, 2002, THYORA is a melodic techno artist with a uniquely cinematic sound rooted in classical training and emotional storytelling. Influenced by deep house, melodic house, afro house, and rich oriental textures, her sets go far beyond the club standard. Offering introspective, mythically inspired journeys where each beat seems to awaken something ancient within.

Her background in classical piano and music theory laid the foundation for a sound that is both intricate and soul-stirring. Drawing inspiration from artists like Innellea, Dyzen, Massano, and Joachim Pastor, THYORA sculpts each set like a score; layering celestial melodies with deep, punchy rhythms and evolving harmonics.

After emerging on the Basel scene, she quickly caught attention through her emotionally charged performances at Nordstern, where she became known for opening dancefloors with grace and power. Being selected to perform at Street Parade 2025 by Nordstern's bookers to set the tone for other newcomers on the Lovemobile, cemented her role as a master of vibe-building.

She's since played venues like HIVE, Gurtenfestival, Street Parade, and Fondation Beyeler, sharing the stage with acts such as Kölsch, Miss Monique and Adriatique. Her style is best experienced in daytime sets that run 2–3 hours, where she excels at crafting atmospheres that connect audiences long before the peak hits.

**For THYORA, music is a sacred exchange. Her approach isn't about ego or spectacle. It's about cultivating presence, unity, and emotional release through sonic ritual. Each set is a moment of vulnerability, built for the collective pulse of the crowd, and designed to linger far beyond the final track.**

## DE - THYORA

### 250 Zeichen Biographie

Bekannt für emotionale und mystische Klangreisen, mit denen sie sich im Basler Nordstern einen Namen gemacht hat, taucht THYORA in tiefgründige Klangwelten ein, in denen die Energien und Emotionen antiker Mythen subtil mitschwingen.

### Kurze Biographie

Die Schweizer DJ THYORA präsentiert bei der Ausstellungseröffnung der Fondation Beyeler im Mai erstmals ein speziell kreiertes Ambient-Set, in dem sie ihren einzigartigen melodischen Techno zu einem immersiven Klangerlebnis weiterentwickelt. Ihr unverkennbarer Stil – geprägt von treibenden Beats, warmen Synth-Flächen, orchestralen Akzenten sowie ätherischen, orientalischen Einflüssen – wird auf eine stimmungsvolle Dance Kompositionen übersetzt, die harmonisch auf die Umgebung und das Venue des Event abgestimmt sind.

Bekannt für emotionale und mystische Klangreisen, mit denen sie sich im Basler Nordstern einen Namen gemacht hat, taucht THYORA in tiefgründige Klangwelten ein, in denen die Energien und Emotionen antiker Mythen subtil mitschwingen. THYORA lädt die Zuhörer ein, sich in einen kontemplativen Klangraum zu begeben, in dem selektierte Melodien und schwingende Rhythmen ineinanderfließen.

Nach beeindruckenden Auftritten an der Street Parade, Frauenfeld und dem Gurtenfestival in 2025, verspricht THYORA's Set jedes Mal ein herausragendes Hörerlebnis, welches über 2-3 Stunden Tagsüber die Tänzer für die kommenden Stunden des Peak aufwärmt.
