Description

Introducing the PUNTO Air, a sleek, all-in-one wireless charger designed for modern workspaces. With its ultra-slim profile and lightweight construction, it delivers a minimalist aesthetic without compromising on performance. Unlike typical wireless chargers, the PUNTO Air features a built-in switch-mode power supply within the body of the unit, so there's no need for a USB-C lead or external charger. It connects directly to building power using the included AC input cable. You can choose from multiple input cable options, including:

- 0.3m drop lead with male 3PP or 3PPG connector. Other cable lengths can be provided.
- 0.3m drop lead with Bypass 3PP or 3PPG connectors (the Bypass connector is supplied with male and female connectors for easy daisy-chaining). Other cable lengths can be provided.
- 2m Input power lead with an international plug top (eg SA, Slim SA, UK, Schuko, USA, China and others).

Enjoy fast, efficient wireless charging with built-in safety features including overcurrent protection, overtemperature protection, and intelligent foreign object detection. The PUNTO Air also comes with a locking ring that secures the unit into the worksurface.

Features

- Premium glass front cover
- Ultra-slim and lightweight design
- All-in-one wireless charger with built-in switch-mode power supply
- Seamless in-desk integration
- Wireless charging capability: 15W / 10W / 7.5W / 5W
- Overcurrent protection
- Overtemperature protection
- Foreign object detection (FOD)
- Qi-Compatible
- Locking ring for secure installation
- Multiple AC input cable options

Technical Specifications

Input Power	USB-C 5V/9V/12V
Output Power	Up to 5W, 7.5W, 10W, 15W
Standby power	<150mW
Efficiency	Up to 84% (Two-chip solution)
Protocol	WPC v1.2.4, Proprietary 5V/9V/12V Qi-Compliant
Protection	OCP,OTP, UVLO, LCVP,DPL (when powered from USB A)
FOD	Q factor analysis due to eddy current, Analog Ping, and Power Transfer monitoring.
Power Supply	110-250VAC 50/60Hz

What's in the box

- 1 x PUNTO Air wireless charger
- Locking ring
- Input cable of your choice

Applications

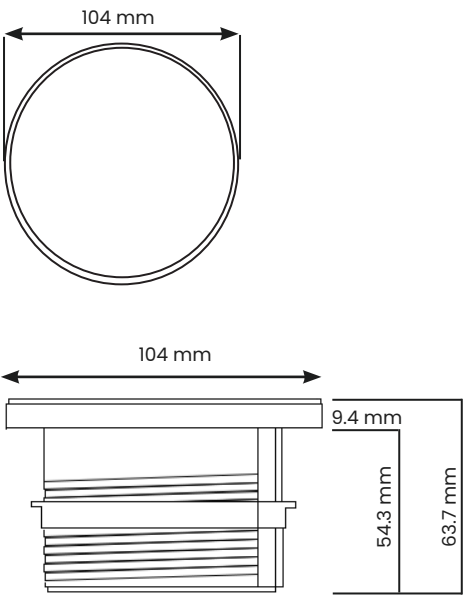

- Office desks
- Coffee shop
- Meeting areas
- Waiting areas
- Call centres
- Laboratories
- Workshops
- Co-working areas
