### Description

A powerful, elegant Power Dock that is characterized by its smooth gas strut operation and its unique configuration having power outlets on both sides of the unit. More outlets, more capabilities. With a simple press of the top of the Power Dock, the sockets reveal themselves as the unit raises itself up automatically. The unit can be pushed down and lowered back into place, hidden and out of the way, keeping your surface clutter free. The Gemini CC WC model also has a 15W wireless charger built into the top cap, so you can keep your mobile devices powered up and your work space clean and functional.

**Gemini:** Fitted with four standard UK power sockets for reliable everyday use.

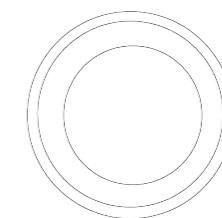

**Gemini CC:** Fitted with four standard UK power sockets, and two Type-C charging ports for fast and efficient charging of mobile devices.
