909CYBER Resourcing
On-Demand Cyber Expertise

Pre-vetted Experts • Practitioner-led Vetting • Patrnership Through Delivery

Building Resilient Cyber Teams-Made Simple

909Cyber hels organizations rapidly scale their cybersecurity capabilities with pre-vetted, practitioner-backed talent. Whether you need specialized engineers for key projects or fractional leaders to drive initiatives, our professionals integrate seamlessly and deliver measurable results.

We don't "place and forget." We stay involved from kickoff through completion—partnering with contractors and clients to guarantee every project's success.
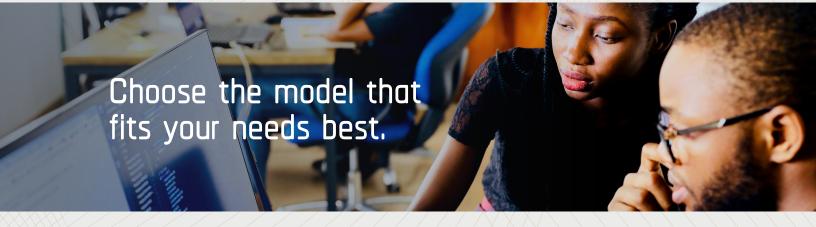

Practioner-Led Vetting

- Every candidate is reviewed by cybersecurity experts who've done the work
- Ensures technical depth and project alignment
- Reduces mismatches and onboarding time

Pre-Vetted Cyber Bench

- Trusted network of 5,000+ engineers, architects, and analysts
- Experts in DevSecOps, Cloud, SOC, and GRC
- Ready for contract or fractional engagements

Partnership that Delivers

- Ongoing engagement and mentorship throughout each project
- We stay involved until outcomes are achieved
- Contractors backed by peer expertise and leadership support

Choose the model that fits your needs best.

Project-Based Support

A flexible engagement model for tactical and short-term needs.

- Rapid access to specialized cybersecurity engineers
- Hourly or milestone-based structure
- Ideal for SOC, Cloud, or compliance initiatives
- Practitioner oversight ensures consistent delivery

Integrated Cyber Expertise

Strengthen your team with proven cybersecurity professionals who embed seamlessly into your projects.

- Fractional or project-based support to fill key gaps and accelerate outcomes
- We stay engaged from kickoff to delivery to ensure measurable success
- A true partnership—focused on outcomes, not headcount
