

Secure Your Business with 909Cyber's Services

As an executive, you know how critical security is to your business. But you may be unaware of your risks, struggling to hire good leadership, or need help with strategy or execution. That's where 909Cyber comes in.

At 909Cyber, we understand that your primary focus should be on driving your business forward. Our tailored consultancy services go beyond basic protection as we help you optimize cybersecurity spending, simplify security operations, and make informed strategic decisions. We translate complex cyber risks into clear, actionable insights, allowing you to allocate resources effectively and confidently pursue your business objectives. With 909Cyber as your partner, you can channel your energy into growth and innovation, knowing your digital risk is in expert hands.

Affordable Cybersecurity for Growing Businesses

909Cyber offers everything from consultancy and executive leadership to recruitment. Our services are specially designed to focus on the deliverables, which we call work products, rather than hourly rates. We support businesses that need robust protection and compliance but may not have the budgets of giant corporations.

Sample Work Products

We have over 20 specialized work products listed on our website, here's a small sample:

SECURITY ASSESSMENT	SECURITY STRATEGY	SECURITY ROADMAP
ACCELERATED SOC2	VENDOR/SUPPLY CHAIN RISK ASSESSMENT	INCIDENT RESPONSE PLAN
BREACH ADVISORY	STARTUP GTM ADVISORY	TECHNOLOGY RATIONALIZATION & SELECTION

OUR SERVICES

Consulting philosophy centers on reducing risk, minimizing security friction, and lowering costs. Through our "Pragmatic Security" approach, we assess your spending, processes, and operations, providing recommendations that help you save money without compromising security.

vCISO services provide executive-level strategic leadership. Whether you need a full security program or targeted solutions, we tailor our approach to fit your unique business needs.

Recruitment services leverage deep industry knowledge and networks to fill immediate roles but also build a pipeline of qualified professionals aligned with your culture and long-term goals. This strategic approach empowers your organization to innovate, respond to emerging threats, and maintain a competitive edge in a highly dynamic industry.

Our Approach – 909Cyber 5 Step Pragmatic Security Program

Our approach is different from the rest of the security firms out there. Here are a few highlights of our process:

Why Choose 909Cyber?

EXPERT GUIDANCE:

Our seasoned experts bring over 50 years of experience that have protected some of the world's largest companies.

COST-EFFECTIVE SOLUTIONS:

Get enterprise-level security at a fraction of the cost, freeing up funds and resources for other business priorities.

TAILORED AND SCALABLE PLANS:

We offer customized security solutions that grow with your business, adapting to new threats and needs as you scale.

REGULATORY COMPLIANCE:

Our team ensures you stay compliant with industry regulations, reducing risks and avoiding costly penalties.

909Cyber empowers businesses like yours with top-tier security and peace of mind. Let us handle your cybersecurity so you can focus on growth.

Memberships

The leaders of 909Cyber ran our Security and IT teams for several years through a successful acquisition. During that time, they were responsible for product and enterprise security, which included compliance efforts and successfully renewing our SOC2 for several years.

Den and team also helped our go-to-market efforts including speaking engagements, partnering with our sales and marketing on messaging, as well as lead generation.

Jayanth Gummaraju (CEO and Co-Founder) and Tarun Desikan (COO and Co-Founder)

909Cyber is a cybersecurity firm offering consulting, vCISO, and recruitment services with decades of experience across industries and company sizes, from Series A startups to Fortune 100 enterprises. Our consulting philosophy focuses on reducing risk, minimizing security friction, and lowering costs through a "Pragmatic Security" approach that assesses spending, processes, and operations, delivering cost-saving recommendations without compromising security. Our vCISO services provide executive-level strategic leadership, while our recruitment services leverage expert practitioners throughout the hiring process to save clients valuable time.
