TISSUE NAPKINS

Soft • Strong • Sustainable

Our napkins are crafted from a bamboo fibers as well as recycled tissue, combining nature's strength with responsible reuse.

- Bamboo advantage – Bamboo grows rapidly, requires no pesticides, and regenerates naturally, making it one of the most sustainable raw materials on Earth.
- Recycled tissue – By giving new life to recycled fibers, we reduce waste and minimize the impact on forests.
- Gentle & strong – Soft to the touch yet durable enough for daily use, perfect for homes, cafés, restaurants and events.
