Director's Highlights

Message from Katrina (Satellite Pharmacy)

Due to a significant increase in workload, our Satellite Pharmacy is temporarily unable to process new same-day or next-day prescription pickups.

If you need medication urgently (same-day or next-day), you will need to visit the main pharmacy or use an off-base pharmacy, where prescriptions can be filled more quickly.

If you choose, you may fill a partial prescription off-base and then transfer the remaining refills back to the Satellite Pharmacy for future use. A transfer form is available to help us coordinate this process. (Form is available at the front desk, or we can email you a copy.)

We understand this may be an inconvenience and appreciate your patience. These changes are being made to ensure all prescriptions are handled safely and accurately for every resident.

Example Scenario

A resident goes to Urgent Care or the Emergency Room with an infection and is discharged with a prescription for an antibiotic that needs to be started the same day.

Because the medication is needed immediately, the resident should ask the discharging provider to send the prescription to an off-base pharmacy, such as Publix, Walgreens, CVS, or another local pharmacy. This allows the medication to be picked up immediately and started without delay.
