

ENGINE FOR CONCUR

Simplify hotel booking, payment, and expense — directly inside Concur

THE ENGINE ADVANTAGE

Managing hotel travel at scale requires more than good rates. Finance and travel teams need reliable inventory, compliant payment, clean receipts, and faster close — all without disrupting established Concur programs

Engine delivers this directly inside Concur by combining hotel coverage, managed payment, and automated expense capture into a single, seamless workflow.

THE VALUE

Unlocking real value

Engine extends your existing SAP Concur program with broader hotel coverage, stronger pricing options, and integrated payment ownership — all while preserving existing workflows, partners, and governance.

- Coverage at scale — One source for 1M+ lodging options worldwide
- Expanded rate access — Engine-exclusive rates layered onto existing programs
- Centralized payment — Direct Bill and end-to-end payment ownership
- Operational simplicity — Single ownership reduces hotel issues and simplifies reconciliation

THE EXPERIENCE

Seamless Integration into Concur

Engine fits seamlessly into existing Concur workflows with no changes to policies, approvals, or servicing models. If your team uses Concur Travel, Engine extends your program with broader hotel coverage and integrated payment — while continuing to work alongside your existing TMC and without re-platforming, retraining, or governance resets.

WHY ENGINE + CONCUR

Built for scale

Engine's integration with Concur enable unique solutions that competitors cannot match. Customers get better inventory, reduced costs, and improved efficiency all within workflows they already know and trust.

- ✓ Certified SAP Concur integration partner
- ✓ Works with existing Concur policies, approval workflows, and TMC models
- ✓ Designed to scale for complex, global organizations
