

18. Tomatoes, calyx on, 3 of the same cultivar, not miniature
19. Tomatoes, miniature, 1 truss or cluster, example grape/cherry, small-fruited
20. Unlisted vegetable, named, 1 specimen
21. Zucchini, 1 specimen 15-20 cm (6-8")

TIPS TO HORTICULTURAL EXHIBITORS:

The guidelines in the "Ontario Judging & Exhibiting Standards Booklet" shall be used as the judging standard. This publication may be purchased at The Woodstock Horticultural Society Meetings for \$10.00 per copy.

The following characteristics are desirable in all types of horticultural exhibits:

UNIFORMITY- as uniform in size, colour, form, shape, and stage of development as possible.

CONDITION - free from blemishes caused by insects, disease, dirt, and mechanical damage and showing evidence of good culture and grooming.

SUBSTANCE – firmness of the stem, leaf or flower which enables it to retain its form, freshness and colour.

STEM AND FOLIAGE - strong, straight, clean.

FORM AND COLOUR - as true to cultivar or type specified as possible, bright, clean, and attractive.

DISTINCTION – marked superiority in all respects that sets an entry apart from all others.

JUNIORS - Class 20 Sections 22 to 34

Open to any youth under 18 years of age

Please write on your entry form if you are a 4-H Club member

Youth/junior exhibitors under 18 years do not pay entry fees but must register for a junior exhibitor number. They may exhibit in an adult class without a membership fee.
