About Halfin

At Halfin, we are a stocking electronic components distributor specialising in the European markets. We help our customers source **day-to-day, shortage and obsolete electronic components** quickly and at competitive prices.

As part of the Cyclops Group, we have an international presence and access to a trusted supplier network across the world. Our dedicated Account Managers work hand-in-hand with our team of global sourcing experts to source the components you need, when you need them.

Founded by Léon Halfin in 1946 and incorporated to the Cyclops Group in 2022

Part of the ISO-accredited Cyclops Group

Global offices and sourcing hubs across several continents

More than 280,000 lines of stock with over one billion components held in stock

Our Services

Our team of global sourcing and procurement experts work hand-in-hand to deliver added value to your supply chain.

Electronic component sourcing

Large inventory, global network and quality assurance to keep your supply chain moving.

Scheduled ordering services

Buy your stock in advance at the best price and schedule deliveries throughout the year, saving space, time and money.

Why Choose Us

At Halfin, our focus is on delivering outstanding customer service, with the highest standards for quality and reliability.

With a team global sourcing experts, trusted supply network and international distribution hubs, we are able to source the components you need, when you need them.

Personal service through your dedicated Account Manager with no unwanted communications - we will only contact you when needed.

Our industry-leading component testing, inspection and quality procedures remove risks and protect your supply chain.

With market experience built over several decades, we have the knowledge and skills to respond to urgent needs and changing market conditions.

Quality and Inspection

Whenever you make a purchase through Halfin Electronics, you will be protected by our One-Year Quality Guarantee.

That means that if the parts we provide you with fail to meet manufacturer's specification within twelve months, we will either replace the parts free-of-charge, no questions asked, or refund the original purchase price.

* Terms & Conditions apply.

Our industry-leading quality control and inspection programs are designed to maintain the integrity of your supply chain.

- All incoming goods go through our inspection process
- All components are photographed and undergo inspection based on the type of part, age, supply chain and specific customer requirements
- Visual inspection includes body and lead inspection
- Experienced inspectors with the right training and technical expertise ensure delivery of quality product
- Parts tracked through a barcode system, from supplier delivery note right through to customer despatch
- Should parts not meet our expectations they are subject to further investigation

Global Reach

A team of experienced sourcing experts across 8 locations, global trusted supply network and international distribution hubs.

8 global locations

4 regional distribution hubs

50+ countries served

Customer Testimonials

"Always a professional approach and correct market prices...They always keep appointments. They are professional, friendly and very clear in terms of delivery times, during the various steps up to delivery. We are very satisfied customers."

"Réponses rapides, fiabilité et suivis impeccables"

"Personnel très compétent, à l'écoute, suit les besoins du client, prêt à proposer des alternatives et à trouver d'autres sources d'approvisionnement si besoin, dans des délais compétitifs. Un vrai service personnalisé pour ses clients."

"Personnel qui répond aux demandes les plus exotiques, et qui s'investit dans les demandes de leur client afin d'y répondre au mieux. A l'écoute des besoins et des réclamations."

"Personnel à l'écoute à chaque demande, réactivité, cherche des solutions. Une société et un service que je recommande."

"Personnel qui se démène pour trouver les besoins de ses clients avec réactivité et bonne humeur"
