

REACH Statement

Regulation (EC) 1907/2006, the Registration, Evaluation, Authorization and Restriction of Chemicals (REACH), which has also been brought into UK law and known as UK REACH, addresses the production and use of chemicals within the European Union, especially those substances of very high concern (SVHC).

Halfin Electronics Limited ("Halfin") is an independent distributor of electronic components and as such, is a 'supplier of articles' as defined by the REACH regulation.

As there is no intended release of substances sold by Halfin, under normal or any foreseeable conditions of use, there is no need to register our activities with the European Chemicals Agency (ECHA), or supply safety information.

Chemicals used in the components, or the production of the components sold by Halfin are done so at the discretion of the individual manufacturer.

The relevant requirements of the REACH Regulation remain the responsibility of the manufacturer.

As a distributor, our role in assisting our customer's compliance with REACH is to provide the most up-to-date information that is available to us at the time of purchase.

At Halfin, we work with our suppliers to obtain as much information as possible on the products that we distribute.

Halfin requires that its suppliers comply with all applicable statutory and regulatory requirements relating to the manufacture, labelling, packaging, storage, handling, and delivery of Goods.
