

CONNECT+

CONTROL SYSTEM

BATRIBIKE
sustainable e-bikes 

*LED display/control
fitted to bike.*

*Optional use of
customer's own
Smart Phone using
Promovec App.*

Select which type of assistance you prefer!

The Connect+ System, either on it's own, or with the optional upgrade to Graphic Display allows the customer to choose between types of assistance.

Dependant on the electrical system installed on the bike, there are 2 different system options. Each system includes 3 different assist types:

Speed Sensor System

- Speed mode.
- ECO mode.
- Set distance.

Torque Sensor System

- Normal mode.
- Torque mode.
- Set distance.

GRAPHIC DISPLAY

Optional Connect+ Upgrade

Gives additional use of over-ride throttle
