EXPERIENCES

UI/UX Designer

WinWin Labs

Dec 2024 - Present

- Defined a cohesive **design system** for the organization's crowdfunding platform, ensuring consistency across product features and platforms.
- Worked directly with software engineers to create an MVP of a temperature and humidity tracking sensor and application.

UX Writer

WinWin Labs

Aug - Dec 2024

- Led the **UX writing** stage for the redesign process of the organization's website, improving readability and intuitiveness.
- Collaborated with UI/UX Designers and copywriters in establishing suitable and consistent language used throughout the design.

UI/UX Designer

University of Washington

Jun - Dec 2023

- Improved efficiency by **42%** by developing an automated vaccination record translation system in collaboration with **Public Health Seattle & King County**.
- Maintained effective communication with stakeholders including the development team, medical team, and investors.

Product Design Intern

tiket.com

Sep 2022- Mar 2023

- Led the end-to-end design process for an electronic wallet mobile application, integrating **financial technology** across three ecosystems: **E-commerce**, **Travel**, and **Grocery Shopping**.
- Conducted user research with 5 first-time users and redesigned the book flight feature of a mobile application.

UI/UX Designer

PERMIAS Seattle

Oct 2021- Jun 2022

- Worked with engineers, project managers, and researchers to develop an E-commerce site, serving **318 users** and facilitating **1264 transactions** in a day.
- Conducted **A/B testing**, effectively integrating feedbacks to enhance usability by **29%** and user satisfaction by **62%**.
