

Education Public Speaker- GenAI & EV Technology Programs

At [Capabl](#) we believe that everyone deserves access to the right mentorship to unlock their full potential. We're looking for individuals who resonate with our vision and are committed to becoming the best versions of themselves. Challenges excite us, and overcoming them drives us. If this sounds like you, keep reading.

Job Description:

We're looking for a dynamic, high-energy individual who loves to travel, is confident on stage, and knows how to engage an audience. As an **Education Public Speaker**, you'll be the face of Capabl on engineering campuses—introducing students to our flagship GenAI and EV programs and driving participation through compelling presentations.

- Conduct impactful, high-energy orientation sessions in engineering colleges across India.
- Maintain a strong stage presence and confidently address large student gatherings.
- Present Capabl's GenAI and EV workshops in a clear, engaging, and persuasive manner.
- Drive student registrations by effectively communicating program value and guiding them through the enrollment process.
- Build strong rapport with college administrators, HODs, and student leaders to facilitate smooth execution.
- Maintain a strong stage presence and confidently address large student gatherings.

Key Requirements:

- Excellent communication and public speaking skills.
- Ability to influence and persuade a young college student audience.
- Comfortable with frequent travel across cities and towns.
- Strong organizational and people skills.
- Prior experience in event anchoring, public speaking, or campus engagement is a plus.
