Duration- 2 months

Stipend- ₹ 9,000- ₹ 12,000 per month

Joining: Immediate

About Us

At [Capabl India](#), we build modern digital experiences focused on innovation, creativity, and performance. We are looking for a Webflow Intern who is eager to learn, experiment, and help us create clean, responsive, and visually engaging websites.

Job Description:

As a Webflow Intern, you will work closely with our design and marketing team to build and update websites using [Webflow](#). This role is ideal for someone passionate about web design, no-code development, UI/UX, and creating smooth user experiences.

Responsibilities

- Assist in designing and developing responsive websites in Webflow
- Convert Figma or design references into Webflow pages
- Update website content, layouts, and CMS collections
- Ensure websites are mobile-friendly and optimized for performance
- Help create landing pages for campaigns and marketing activities
- Work with the team on animations, interactions, and basic SEO improvements
- Maintain consistency in branding, typography, and design systems
- Test websites across devices and browsers for quality assurance

Requirements

- Basic understanding of Webflow and responsive web design
- Familiarity with HTML, CSS, and JavaScript is a plus
- Understanding of UI/UX principles and clean layouts
- Creative mindset with attention to detail
- Ability to learn quickly and take feedback positively
- Basic knowledge of Figma, Canva, or Adobe tools is preferred
- Strong communication and problem-solving skills

Good to Have

- Experience creating personal projects or portfolio websites
- Knowledge of CMS, animations, or SEO basics
- Understanding of no-code tools and modern web trends

What You'll Learn

- Real-world Webflow development workflows
- Website optimization and responsive design practices
- Landing page creation for marketing and branding
- Collaboration with design, content, and marketing teams
- Exposure to modern no-code and AI-driven workflows
