- Increased customer acquisition by 85% developing personalized websites and brand identities for local area real estate firms and services

KEY PROJECTS

Intuit Accountant Vision

Led the vision for next-gen QuickBooks Accountant product. AI-powered, user-centric, and scalable, aligning cross-functional teams, securing executive buy-in, and driving strategic product direction.

Realtor.com Android App

Designed a new Android experience that helps users find, buy and sell real estate properties across the United States. It went from less than 5k downloads to over 5MM within 2 years and a rating increase from 2 to 4.6-stars within the Google Play Store.

KEY PROJECTS

QuickBooks Ledger Product

A new QuickBooks Online product designed exclusively for accounting professionals to manage their year-end, tax-only, and low-transaction clients. 70% organic GNS increase within one month after launching.

AI-powered financial intelligence

A digital CFO experience that delivers faster, more informed decision-making through generative AI, natural language interactions, and deep industry benchmarking to help leaders run their businesses more effectively.
