Setting the Standard for Sustainability

LDC FEE REDUCTION TERMS & CONDITIONS

Eligibility

The Least Developed Country (LDC) royalty and certification fee reduction is available only to individuals who are resident in, or companies that are legally incorporated in, a country classified as a [Least Developed Country by the United Nations](#) at the time of purchase.

Basis of Qualification

Eligibility is determined solely by the country of residence (for individuals) or country of incorporation (for companies). Nationality, place of business operations, billing address, or temporary location do not affect eligibility.

Verification

The fee will be tied to the account details provided to AccountAbility by the user and saved in our AccountAbility system. Users will need to contact AccountAbility to request the pricing change – please reach out to us at invoicing@accountability.org to make this amendment. We reserve the right to request reasonable documentation to verify eligibility, including proof of residence or incorporation. Failure to provide such documentation may result in refusal of the fee reduction.

Misuse

The fee reduction must not be used on behalf of, or for the benefit of, individuals or entities that do not qualify. Any misuse may result in termination of access and retroactive charging of the standard price.

Changes

Eligibility criteria may change if the [Least Developed Country by the United Nations](#) classification list is updated. We reserve the right to modify the fee reduction at any time.
