Better Water. Pure and Simple:

Elevate your household's drinking water quality with the Sapphire M85K. This 2 in 1 KDF/GAC filter is used with the M101 on bench housing kit giving you clean drinking water at all times.

Better Water. Pure and Simple

Upgrade your household water quality with the Sapphire M85K, a compact yet powerful point-of-use filter. Being a slimline filter measuring 10" x 2.5", it's designed to fit snugly into your home's M101 water system, delivering efficient filtration without taking up too much space.

Multiple Filtration Media : The 2 in 1 filter ensures a range of impurities are filtered. The KDF removes heavy metals along with the carbon granules removing organic chemicals, chlorine and odor and bad tastes.

IMPORTANT : Ensure when installing the cartridge that the rubber washer on the cartridge is on the bottom i.e: sitting against the housing.

COMPATIBLE WITH:

- M101 ON BENCH KIT

Low Micron level: With a very low 1 micron rating the M85K can be used and rest assured majority of impurities will be removed along with the chlorine taste being removed through the use of a carbon block filter.
