MOYΣEION

Via Gradelle S. Nicola del Sole 3 - Sassi di Matera

Discover the Lyre

This 4-day Music Making Course launches an annual winter training programme developed by Lotos Lab for the MOYΣEION Matera.

What makes this course unforgettable isn't only the hands-on creativity, but the place and the people: led by Nikos Xanthoulis (lyre), Pino Basile (frame drum), and Barnaby Brown (aulos, lyre making, and scholarship). Participants will learn specialist playing techniques and holistic musicianship skills focused on interpreting ancient materials: metres, rhythms, tuning systems, and modes.

The place is Matera: carved stone dwellings and timeless atmosphere provide the perfect setting to reconnect with ancient traditions. With small groups, every voice is heard, and every instrument matters. You'll be part of a creative community, guided by tutors who bring scholarship and artistry together in ways you won't find anywhere else.

A collaboration between
