

8-12 December 2025

# MOYΣEION

Via Gradelle S. Nicola del Sole 3 - Sassi di Matera

## Discover Ancient Rhythm & Bass

This 4-day Music Making Course has been developed by Lotos Lab exclusively for Matera's MOYΣEION. At its heart is the **bass aulos** – a roaring instrument that once led worship, dance, and theatrical festivities from Afghanistan to the Atlantic.

Guided by world-leading artists and scholars, participants will explore how metre, breath, and vibration shaped ancient spiritual experience. **Open to all** – singers, dancers, pipers, percussionists, instrumentalists, scholars and enthusiasts.

Discover the soundscape of the *Phrygianum* (the Vatican before Christianity) and the Greek temples of Magna Grecia.

Join us in the timeless setting of Moyseion's pre-Christian sanctuaries. Make a bass aulos to take home. Be part of a creative community, guided by tutors who bring scholarship and artistry together in ways you won't find anywhere else.

A collaboration between

 **Lotos Lab** & **MOYΣEION**
