Attract More Attention To Stores From The Street

It is a very good choice to choose high brightness dual sided digital window display to attract attention to the stores from the street.

The device has high brightness 2500nits (3000nits optional) screen towards the outside and the street, and it is readable under the sunlight. It can display promotion and product information in videos, pictures or texts. And the inside 700nits screen can display different contents for the indoor clients.

Double Side Ceiling Mount
