Gluten-Free Requests

Because gluten is used extensively throughout our kitchen, we cannot guarantee a completely gluten-free environment or the absence of cross-contact.

We make every effort to accommodate gluten-free requests. When preparing your order, our team will freshly sanitize stations and use a dedicated grill for toasting our GF bun that is never used with gluten-containing products.

Our fries are gluten-free and cooked in their own dedicated fry vat. However, please note that the fry oil drains into a shared filter pan with our nugget oil, which does contain gluten.

* Our cheese contains no gluten ingredients, but it is not certified gluten-free.

No nuts used in our products or facility but we can't confirm every ingredient is made in a nut-free facility.
