

# LIQUEUR

COLLECTION

The LIQUEUR table collection is all about a lack of formal definition. There are no hard edges here - only soft transitions, gentle swells, and silhouettes that shift subtly from every angle, bending like the slow arc of a pour.

Designed to be highly customisable, from the most humble of side tables, to the grandest of dining or boardroom tables and to the longest of communal bar counters.

LIQUEUR Tables can be elegantly stretched in all directions - establishing their rightful place as our most flexible table collection.

LIQUEUR is made to order in range of different heights as tables, coffee, counter and high bar tables, offered in a wide range of sizes, optional pedestal supports, varying tabletop shapes and optional finishes. Custom extended sizes can be made to any length, and power/data can be integrated into tabletops including inside pedestals.
