

TXSE Extranet Addendum

Texas Stock Exchange LLC (the “Exchange” or “TXSE”) partners with approved telecommunication network providers that operate a financial extranet to aggregate customer connectivity for Exchange order entry access or the receipt of multicast market data.

In order to be approved as and maintain one’s status as a TXSE Extranet Provider, the firm is required to meet and maintain the following requirements.

1. Identify themselves as an Extranet Provider in publicly available marketing materials.
2. Sign a Connectivity Services Agreement including the Extranet Addendum.
3. Complete and submit a Connectivity Services Information Document.
4. Provide network transport services only and not process or modify any of the information sent between TXSE and its customers connected via the Extranet Provider.
5. Provide customers reliable, redundant physical connectivity to one or more of the following Exchange sites:
 - a. Secaucus, NJ NY4 NY5 NY6 (Equinix) (NY6 primary, NY4 NY5 latency equalized)
 - b. Dallas, TX DA11 secondary site (Equinix)
 - c. Chicago, IL CH1 secondary site PoP (Equinix)
6. Physical connectivity must be wholly owned and managed by the Extranet Provider (i.e., an Extranet Provider may not nest their connectivity within another Extranet Provider).
7. Each customer of an Extranet Provider must use a public IP address range to communicate with the exchange. For each customer, use of that range must be constrained to the customer and not shared by any other customers.
8. Extranet Providers will provide the Exchange with monthly reporting (if consuming fee-liable Market Data), detailing customer’s name, assigned IP subnet, and subscribed market data feeds.
9. Extranet providers who meet the specified criteria to provide market data related extranet services to end users will not be treated as a Data Subscriber of TXSE Market Data and will not be subject to TXSE Market Data fees. Such distinction is made on a feed by feed basis and requires that the Extranet Provider meet all criteria outlined in both the TXSE Extranet Manual and TXSE Extranet Addendum. Firms may meet the criteria to be treated as an Extranet Provider for certain TXSE Market Data feeds, while being treated as a Data Subscriber for other TXSE Market Data feeds, depending on circumstances.
10. Extranet Providers will be billed for each individual physical network connection according to the application TXSE fee schedule.
11. Provider must maintain a staffed network support phone number between the hours of 8:00 am ET and 5:00 pm ET.

TXSE Extranet Provider Attribution

Approved Extranet Providers will be listed on the TXSE website with contact information and a link to the firm’s website. Customers that contact TXSE and inquire about extranet access will be referred to this website page for further information on TXSE Extranet Providers. In addition to the required paperwork noted above, the Extranet Provider will provide TXSE with the following:
