

Testimonials

Jody Lancour

Director, Tenant Coordination & Specialty Projects, Howard Hughes

WC Construction is a true construction partner for us. Over the past 7 years their continued commitment to excellence ensures that every project runs smoothly, and when challenges arise, WC Construction is quick to provide effective, well-thought-out solutions. We rely on them for our Class A projects in the 25,000-125,000 sq ft build outs, and smaller one offs as needed. They have a proven track record with my teams, on both design build and hard bid opportunities. I would not hesitate to recommend WC Construction for any medical, corporate interiors, and or industrial projects.
