

# Major Vessels

## TO IDENTIFY AND AVOID

Vessel	Location	Clinical Importance
Supratrochlear artery	Medial forehead	Risk during glabella and forehead injections
Supraorbital artery	Superior orbital rim	Avoid deep injections near brow
Angular artery	Nasolabial fold / medial cheek	High risk area for vascular occlusion
Infraorbital artery	Infraorbital foramen	Danger zone for midface injections
Dorsal nasal artery	Nasal dorsum	Risk during non surgical rhinoplasty
Facial artery	Mandible to nasolabial fold	Major vessel supplying the face
