

Small Custom Tanks And Small Custom Heat Exchangers

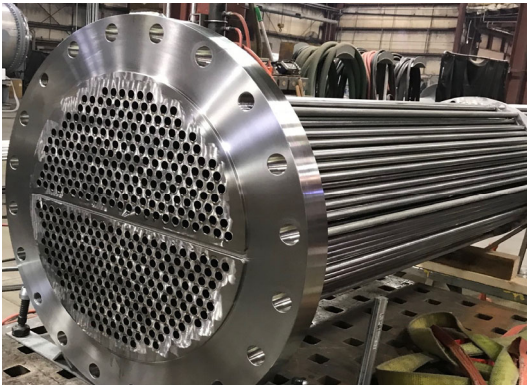

Family Owned and Operated, Since 1976

We Are Dedicated To Your Project's Success!

Small Tanks Is How We Started!

Since 1976, Paget Equipment has built its reputation by serving local sanitary customers in need of small tanks. Over the years, we have expanded significantly to meet the complex demands of global partners. Despite our growth, our foundation remains the same: delivering vessels that solve our customers' challenges and simplify their requests.

ABSOLUTELY, WE EXCEL IN SMALL TANKS!

We specialize in manufacturing custom tanks designed to meet your specific needs—whether for the Food & Beverage industry or the Industrial market. Backed by decades of experience and a strong commitment to quality, our products are built to meet or exceed your expectations. All vessels are engineered and fabricated in compliance with ASME Section VIII Division 1, TEMA, and sanitary design standards.

Alloys

- Monel
- Inconel
- AL6XN®
- Nickel
- Titanium
- Hastelloy
- 300 Series Stainless Steels
- Carbon Steel (Low Temp, Low Residual Elements)
- Duplex and Super Duplex Stainless Steels adhering to API-938 C
- Zirconium

We design using a wide range of codes:

- ASME B and PV Section VIII, Division 1, "U" Stamps
- ASME B31.3, Process Piping
- TEMA Class B, C, & R
- National Board NB & R
- Pressure Equipment Directive, "CE" Stamp
- 3A—Sanitary Design Standards
- Canadian Registration Compliant for all Provinces of Canada (CRN)
- Issued over 29,000 U-stamps since 1990

Quality And Compliance

Paget Equipment Company is committed to meet all of the requirements of the ASME Boiler & Pressure Vessel Code and the quality control system within our manual in accordance with ASME Section VIII Division 1.

All welders at Paget Equipment are ASME Certified. Paget Equipment has over 80 different weld procedures that have been qualified from carbon steel to exotic alloys.

Documentation Packages

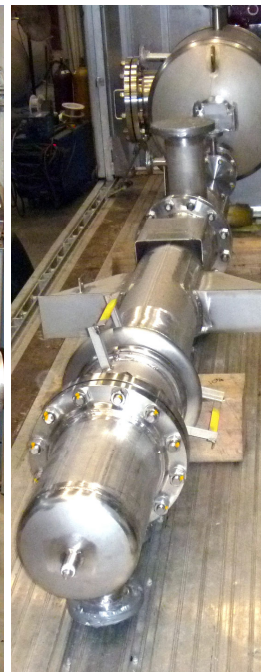

Quality is driven by expectations, repeatability, and organization. Paget Equipment provides an organized collection of customer defined documents.

- **Material Test Reports (MTR)**
- **Weld Procedures**
- **Certified Drawings and Calculations**
- **Welder Qualifications**
- **Welder Traceability**
- **Certifications or Reports for Testing**
- **Compliance Certifications**
- **Certifications or Performed Processes**

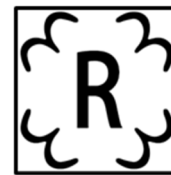

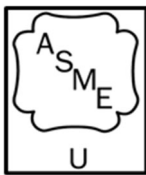

Factory Testing and Services

Paget Equipment offers a variety of testing and services needed to meet or exceed your compliance requirements.

**We focus on empowering the future
by investing in exceptional people,
innovative processes, and
dynamic business partners.**
