# Testimonial

I felt inspired by the workshop we had with Lori Snyder, talking about plants is very important to me. I found the conversations we shared to be engaging and relevant to my values. I learned how to write resumes by using action statements and finding the type that works for me and my work history. some advice I would give to others is to take more time to appreciate the elder who come in to share their teachings! Also use the resources given to you by IYEP, they very supportive and helpful
