TRAINING

Nobesity Bariatric Center

Nobesity is one of the leading bariatric surgery centers of the country and it was a privilege to be trained under Dr. Manish Khaitan, one of the leading bariatric surgeons of the country and OSSI President at the time. I received a holistic training and was involved in pre-operative counselling, operating and also post operative care of the patients.

Alexis Multispecialty Hospital

I helped to set up and run general surgery department. I was part of setting up the Division of Day care surgery and the Surgical High Dependency Unit. I was involved in leading rounds, running outpatient clinics and seeing consults as well as performing procedures in OR.

Master's in General Surgery

The institution was a major tertiary referral center in central India. had rotations in upper gastrointestinal, hepatobiliary – pancreatic, colorectal, oncology, pediatric and plastic surgery units.

SUMMARY

Board-certified General Surgeon with expertise in laparoscopic, minimally invasive, and open surgeries. After completing my post graduation in General surgery, I worked at a newly opened JCI recognized corporate hospital and helped to set up and run the general surgery department, Division of day-care surgery and High surgical dependency unit. Later I completed Fellowship In Minimal Invasive Bariatric and Metabolic Surgery (FMBS) by Obesity Surgical Society Of India (OSSI) and secured a gold medal. Currently working at one of India's highest volume exclusive bariatric surgery Center as a bariatric surgeon in a team since past 3 years. I am currently the Convenor of Young OSSI and I wish to encourage more young surgeons of India develop the skills and learn bariatric surgery.
