

How To: Dental Implants

Lecture: SINGLE POSTERIOR IMPLANT PLANNING

COURSE DESCRIPTION

This course is designed for general dentists interested in gaining a stronger foundation in the principles and protocols involved in dental implant treatment planning. The program will focus on developing a systematic approach to evaluating and planning single-tooth posterior implant cases.

Through discussion of key diagnostic considerations and clinical decision-making strategies, participants will gain practical insight into the assessment and treatment planning process. By the end of the course, attendees will be better equipped to establish their own protocol for the evaluation, diagnosis, and treatment planning of implant cases in everyday practice.

OBJECTIVES

- REVIEW THE NECESSARY DIAGNOSTIC RECORDS REQUIRED FOR SURGICAL PLANNING OF POSTERIOR IMPLANT PLACEMENT.
- DEVELOP THE ABILITY TO ASSESS IMPLANT SITES THROUGH CBCT INTERPRETATION AND EFFECTIVELY COMMUNICATE FINDINGS WITH THE IMPLANT SURGEON.
- UNDERSTAND THE PRINCIPLES OF IMPLANT SIZE SELECTION AND RECOGNIZE CLINICAL SITUATIONS THAT WARRANT REFERRAL TO A SPECIALIST.

Dr. B. Peter El-Dahdah, DDS, MS is a practicing prosthodontist at Houston Prosthodontic Specialists in Houston, Texas. He earned his Doctor of Dental Surgery from The Ohio State University College of Dentistry in 2012. He later completed advanced specialty training in Prosthodontics at UTHealth Houston School of Dentistry, where he received both his Certificate in Prosthodontics and a Master of Science degree in 2016.

During his residency, Dr. El-Dahdah completed a rotation at the M. D. Anderson Cancer Center Department of Head and Neck Surgery, where he gained valuable experience in the multidisciplinary management of complex oral and maxillofacial rehabilitation cases. He has also pursued extensive continuing education in implant dentistry through programs such as Implant Direct and the Zest Academy, further strengthening his expertise in implant-supported restorative treatment.

Dr. El-Dahdah works closely with general dentists and specialists throughout the Houston area and is frequently consulted for guidance on complex restorative and implant treatment
